Welcome to Fall 2021

FALL 2021

Many planets in retrograde motion will be moving forward this month. We all know that Mercury is currently retrograde as it impacts all things related to communications and transportation. Mercury will go direct on the 19th and will be in its shadow period for two weeks after that. It's safe to say that by the 11th of November Mercury will be totally clear from the retrograde. Jupiter will go direct on the 18th and Saturn goes direct on the 11th. When planets go direct, their energies increase and things that were once held back are now in full movement.

We're presently experiencing a Cardinal T-square with Eris at 24° of Aries, Pluto at 24° of Capricorn, and Mercury retrograde at 24° of Libra. It's a time to look deeply inside ourselves for our better nature, a greater alignment with our principles, and opportunities to come into our authentic selves—all of this in the face of a societal consensus that is very distracting and not in support of these endeavors. This energy is confronting and clarifying. It's a good time to talk with someone you trust about what is happening within you.

The Full Moon will be in Aries on the 20th, meaning powerful and significant changes are in store. A new phase of existence is trying to be born within us—we can try to get away from it or take a stand for this new phase.

Pluto is in the sign Capricorn—bringing evolutionary changes for all of us and transforming our existing societal structures. Capricorn rules government and Pluto is the destroyer of what is, so that something new can be born. We will have a new government - one that will bring a new

and great legacy for future generations. It may not look so great while the change is going on, but it is occurring. The future is brighter.

Saturn in Aquarius is prioritizing humanitarian and personal responsibilities of an evolving society. Jupiter in Aquarius brings the gift of inspiration to innovate, problem-solve, and expand our awareness/perspective on all the changes. In a mix of massive cultural change, it is our duty, challenge, and opportunity to do what we can to make the best of this chaotic year and decade. What can we do? How do we move forward? We can be guided by astrological insights, but more importantly by the depth of our own intuition. There are very strong political currents at work with Pluto in Capricorn, transforming governments all over the world. We must bring our best selves forward and be fearlessly strong about what we feel is truly right. It's important not to allow propaganda and the denial of human rights to dissuade us from our goal. The Universe is speaking loudly to us, demanding a fair and equality-focused societal order. We must stand strong, not only for ourselves, but for the generations to come (this is Eris' message to us) and for the evolutionary mandate we share with Nature—to evolve or to perish. It's time to create a world that works for all.

Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for self reflection, introspection and study. It's not a good time to try to get things accomplished! Try to hold off on scheduling appointments, installing any new electronics or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde—it's not a belief, it's a fact. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

2021 Mercury Retrograde Dates:

- September 27 - October 18

2022 Mercury Retrograde Dates:

- January 14 - February 3
- May 10 - June 2
- September 9 - October 2

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde—instead, work behind the scenes to avoid frustration.
