A QUARTERLY NEWSLETTER

SPRING 2020

As I sit here today writing this newsletter, there are tornado watches and flood warnings in effect and millions of people all over the world affected by the COVID-19 pandemic. It may feel like dark times, but there is a positive outlook ahead—complete with challenges that will bring us growth, strength and an awakening to who we truly are!

The astrology surrounding our current situation starts with Jupiter, the planet of expansion and knowledge. It's currently in Capricorn—not a sign Jupiter is comfortable in. Jupiter is a big planet and likes to expand whatever it is involved in and Capricorn has restrictions and limitations. Jupiter is traveling in Capricorn along with Saturn, the planet of discipline and responsibilities, as well as Pluto, the destroyer of what currently is, so that something new can be born. It's like the three musketeers of serious times. We may experience a reprieve from the pandemic over the summer, only to have it return in late fall with greater intensity. Right now, we need to learn to live in new ways both globally and personally, so when fall comes we are all better prepared. There is no return to what was; there is only moving forward to a new era. It's time to do things in a new way.

Capricorn rules government and with Pluto currently in this sign, governments all over the world are being uprooted and changed. Eris, the Spiritual Warrior, is in Aries and is in square (challenge) aspect to the U.S. chart's Pluto in Capricorn and

Mercury in Cancer—telling us it's time for the people to take a stand for what is truthful, right and good for all. It's also about the disagreement currently going on between our media and federal government. The people will be the ones to change things and this has been evident since our last election in 2016. The people will not put up with old ways of doing government. Saturn and Jupiter will both be going into Aquarius in January 2021 and this will usher in a new era! Uranus is in Taurus and this will change our financial systems. Stay tuned—these changes will be big!

How is all of this affecting your chart? If you don't have a birth chart, now is the perfect time to get one done or to schedule an update to your last reading. In a time of social distancing, we can use Zoom to have a face-to-face meeting. Schedule by calling 610-296-2324 or sending an e-mail to plutorising424@gmail.com.

Stay well and think positively! We will get through this and have a new design for living.

There is no return to what was; there is only moving forward to a new era. It's time to do things in a new way.

Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for reflection, introspection and study. It's not a good time to try to get things accomplished! Hold off on scheduling appointments, installing any new electronics or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde -- it's not a belief, it's a fact. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

2020 Mercury Retrograde Dates:

- June 19 - July 11 in Cancer
- October 16 - November 2 in Scorpio

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde—instead, work behind the scenes to avoid frustration.
