A QUARTERLY NEWSLETTER

Eris is the planet of the Spiritual Warrior in support of your soul intention and you cannot help yourself from acting upon it. Eris gives you a set of clues to move through life and enables you to find comfort in knowing what you are up to. This is of great comfort in these changing and challenging times.

Eris was discovered on January 5, 2005 at 11:20AM at Cal Tech in Pasadena, California. Eris has a period of 556 years to circle the Earth and 120 years just to move through the sign Aries, the sign of her brother, Mars. One of Eris' themes is bringing back the dark unknown parts of ourselves into the light. We discover planets when we are ready in consciousness to experience them.

Eris as a Spiritual Warrior shows us the lonely path of those who must struggle to articulate a principle that opposes mass conscious awareness. Eris is taking a principled stand for an unpopular cause vitally necessary for the survival and spiritual evolution of the culture. The conditions currently are ripe for Eris' message and the time has come to understand her.

In doing charts of children who are born with Eris conjunct Uranus (they traveled together in Aries since April of 2016 and will continue until January of 2019) we are seeing a generation of souls with fire in their bellies for truth, justice and freedom for all! These children are our future and they will make changes that will carry us forward to a new day, a

new, more loving way of being that includes all cultures, all people, including our extraterrestrial brothers and sisters, new technologies, clean air, clean water – new life on planet Earth. The struggle, the fight is well worth the effort. We are currently seeing this struggle in our government and in other countries as well.

Discovered on January 5, 2005, Eris is named after the goddess of discord and strife in Greek mythology. It is the most massive and second-largest dwarf planet in the known Solar System.

You may ask yourself "where do I take a stand for truth; for what lies deeply within me and must find expression in the outer world; what is my soul intention; where can I help and serve?" Your astrological birth chart will show you the way and answers these questions as it is your spiritual map of the heavens at the time of your birth.

Enrich your life through the world of astrology on a deep level, which is astrology as it was intended to be.

Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for reflection, introspection and study. It's not a good time to try and get things accomplished! Hold off on scheduling appointments, installing new computers, phones, anything electronic or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde -- it's not a belief, it's a fact. Communications do not work well during these times. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

2018 Mercury Retrograde Dates:

- 03-22-18 to 04-15-18 in Aries
- 07-26-18 to 08-19-18 in Leo
- 11-16-18 to 12-06-18 in Sagittarius

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde -- they will surely have to be changed. Instead, use this time to work behind the scenes and you will avoid frustration.
