SUMMER 2021

WELCOME SUMMER *It's been a hot one so far. Now let's see what's sizzling in Astrology!*

This year is flowing along at a rapid pace. With Mercury retrograde at the end of May—the 29th to be exact—and in Gemini until June 22nd it had us reflecting on the year so far. There was a solar eclipse on June 10th also in Gemini, and eclipses often coincide with major shifts in our lives. Since Gemini is a double-bodied sign, it may be that we dropped the familiar face we show the world and exposed more of our hidden side. We may see this in others as well. It's also interesting to note that since the pandemic, people are in a pattern of redefining or reinventing themselves—I see this in every chart I have done so far this year.

A new pattern emerges for Jupiter this year. Jupiter normally takes one year to transit in each sign, however, this year it's quickly moving from Pisces to Aries in just a matter of a few months! At the end of this month, Jupiter will retrograde from early Pisces where it is now and move back to 22 degrees of Aquarius. It will stay in Aquarius until the end of December. During this time, we will review humanitarian themes, which may feel sweeter due to the short time it has been in Pisces. When Jupiter moves back into Pisces at the very end of December, it will stay there until May 2022. During this period, we'll have the opportunity to examine our humanitarianism, social outlook, and to spiritually broaden our lives with greater compassion for ourselves and our fellow human beings.

How does all of this look for you? It depends on where in

your chart and in what house Pisces is located. This will be the area most impacted. If you have any planets in Pisces this will add to the impact. Jupiter is the planet of benefit, expansion, education, philosophy, and spiritual growth. Usually the only caution with Jupiter is to be mindful of overdoing, promising more than you can deliver, and indulging in excesses.

Adding to all of the above is the square or challenge involving Saturn in Aquarius and Uranus in Taurus—two fixed signs. Fixed signs don't give in until they are ready to. This is a tension aspect as we re-examine structure in our lives (Saturn) we can tear down old patterns (Uranus) in order to build firmer foundations that better correlate with who we are today. The only authority for each of us will be the structures we alone choose that match our highest vision for ourselves going forward.

This is a very important time for us and for the planet. If you have your chart, pull it out to see where all this is impacting you and schedule an update for more information. If you do not have your birth chart, now is a great time to have it done. Schedule a reading via email to plutorising424@gmail.com. Visit www.plutorisingastrology.com for more information.

Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for self reflection, introspection and study. It's not a good time to try to get things accomplished! Try to hold off on scheduling appointments, installing any new electronics or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde—it's not a belief, it's a fact. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

2021 Mercury Retrograde Dates:

- September 27 - October 23 in Virgo

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde—instead, work behind the scenes to avoid frustration.
