

SUMMER 2022

HELLO SUMMER!

It's heating up out there—let's see what's hot in Astrology!

Coming to the end of the quarter, the planet Jupiter is dancing between Pisces and Aries rather than just staying in Pisces for an entire year and then Aries for one full year. It's an unusual time for Jupiter—this speaks to our need for compassion, sensitivity, and caring (Pisces) and our need to take these qualities and act on them (Aries). In stories and videos trending online, people are captured performing acts of kindness and caring, which is lovely to see and experience. In these challenging times, experiencing kindness is vital for the world's well-being and our own personal well-being.

Jupiter in Pisces gives us greater faith in our ideals and opens us to the spiritual dimension of experience. You may perform acts of kindness yourself, which others genuinely appreciate, and as a bonus, it's also good for you. Abraham Lincoln, who had Jupiter in Pisces, is an excellent example of this feeling, as his writings showed the empathy he felt for the plight of enslaved people. Many others who have Jupiter in Pisces also have firmly taken a stand to promote a more significant cause or vision.

Jupiter in Aries takes action to improve situations through confident, self-assertive energy—including taking chances, craving new experiences, seeking independence, leading with enthusiasm, and welcoming physical activity. It's also a time for frankness, which may not always be welcomed. Jupiter in Aries will use aggression to find the proper balance between caring and getting things done, which is greatly needed in the world as it is today.

The challenge with Jupiter is to keep a balance and not overdo it. Since Jupiter is the planet of expansion, it can get carried away with excessive enthusiasm and then find it has taken on too much. The key is balance in all things—then success can be experienced.

Where in your chart are you experiencing Jupiter's expression as you prepare for the summer season? A reading can help you view circumstances with a new lens and make positive changes. Remember, the power of the Universe is always with you!

Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for self reflection, introspection and study. It's not a good time to try to get things accomplished! Try to hold off on scheduling appointments, installing any new electronics or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde—it's not a belief, it's a fact. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

2022 Mercury Retrograde Dates:

- May 10 - June 3
- September 9 - October 2
- December 29 - January 18 (2023)

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde—instead, work behind the scenes to avoid frustration.
