WINTER 2020

## Happy New Year & Decade!

**We began the new year with tensions continuing, including upsetting news of a possible war with Iran—not exactly the best way to kick off a new decade.**

**The New Year also began with the first of six Lunar Eclipses in 2020. The Full Moon in Cancer opposed the stellium in Capricorn 20-24 degrees. This stellium consisted of the Sun, Mercury, Jupiter, Saturn and Pluto all in Capricorn. This symbolizes big structural changes taking place in our world, as well as in our personal lives.**

The three outer planets in Capricorn—Jupiter, Saturn and Pluto—indicate the dynamic challenges to the status quo, which is actually a good thing. It is time for great transformation in our government and with these three outer planets in Capricorn, we will have it! Since it is an election year, this is quite timely and important. Jupiter and Saturn will also be moving into Aquarius—Saturn in March and Jupiter in December. These moves will usher in new energy. Aquarius is the sign of social obligations, freedom, what is good for all of us and not just a few, and the collective integration that we are all one. This will be a time of hope for us, for our country and for the greater good of all nations.

What does all this mean for each of us personally? What are we tasked to do? With everything going on in the world today, this is a great time to find out for yourself how you are doing with change, where in your life is this happening and what is there to assist you during this time? Let us have a personal conversation and look at your birth chart for clarity and guidance. See what is in store for you!

### Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for reflection, introspection and study. It's not a good time to try to get things accomplished! Hold off on scheduling appointments, installing any new electronics or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde -- it's not a belief, it's a fact. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

#### 2020 Mercury Retrograde Dates:

- February 18 - March 9 in Pisces
- June 19 - July 11 in Cancer
- October 16 - November 2 in Scorpio

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde—instead, work behind the scenes to avoid frustration.
