WINTER 2024

Welcome 2024!

As we enter another year, we're seeing numerous astrological forecasts making the rounds online, through social media, in podcasts, and via email.

While these resources are great for offering general insights, they fail to address the specific impact of progressions and transits within an individual's birth chart. It's important to understand how these events affect each of us personally.

If you haven't already, now would be a great time to have your birth chart done to gain deeper insight into these influences. To get started, schedule a Zoom meeting with Sara by emailing her at plutorising424@gmail.com.

Astrology serves as a language of change, revealing the themes, characteristics, and interests emphasized throughout an individual's life from the moment they are born. Your birth chart acts as a roadmap, guiding you through life's changes and challenges.

The sacred spiritual language of astrology teaches us conscious living. Having your birth chart done provides insight into finding your next steps in your evolution—going to school, choosing a career, building a business, forming relationships, social engagement, and healing yourself emotionally/physically. Astrology serves as a reliable guide, offering courage, clarity, and joy amidst life's transformations.

Currently, Jupiter is direct in Taurus and will transition into Gemini in May. Its transit through Taurus may bring material benefits, an expansion of our values and new beneficial relationships. However, as it moves into Gemini, Jupiter's influence will focus on communication, potentially leading to involvement in too many activities.

Pluto's recent entry into Aquarius marks a significant period until September, when it retrogrades back into Capricorn until November. After November, Pluto will return to Aquarius, where it will stay for 20 years. This transition signifies a time of scientific discovery and global unity, heralding the Aquarian Age. We face a pivotal choice between evolving into a connected, compassionate global community or succumbing to destructive paths. What will our choices be? Pluto's influence prompts us to let go of what no longer serves us, facilitating the emergence of new energies and experiences, albeit through challenging circumstances. Pluto will always take you where you need to be even if it is challenging.

Life presents us with moments of goodness, challenges, and transformation. How we respond to these changes shapes our journey. Consider gifting yourself a reading to gain deeper insights—contact Sara at plutorising424@gmail.com. You'll be glad you did!

Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for self reflection, introspection and study. It's not a good time to try to get things accomplished! Try to hold off on scheduling appointments, installing any new electronics or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde—it's not a belief, it's a fact. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

2024 Mercury Retrograde Dates:

- April 1 - April 25
- August 5 - August 28
- November 25 - December 15

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde—instead, work behind the scenes to avoid frustration.
