

SPRING 2024

WELCOME SPRINGTIME!

A season of unexpected awakenings & unique opportunities.

Jupiter, the planet of expansion, benefit, wisdom, and growth, will end its transit in Taurus on May 25th, concluding its conjunction with Uranus in Taurus. This conjunction has released and amplified any stuck energy, both personally and globally. These old stagnant patterns are now shifting, allowing for unexpected awakenings, unique opportunities, and the chance to invite balance and innovation into our lives and the world. Check your chart to see where 22 degrees Taurus falls, as this area will be most activated by the conjunction. If you have planets at 19-23 degrees Taurus or other fixed signs (Leo, Scorpio, and Aquarius), you will feel its impact profoundly.

What are the other outer planets doing? Saturn is in Pisces, a position where it is not comfortable due to a lack of groundedness. However, this period allows the invisible (Neptune) to become visible, making it a time when dreams can be realized. Saturn will move into Aries in May 2025.

Chiron, the wounded healer, is in Aries until 2026, urging us to address our wounds and issues actively and work towards healing them. Neptune remains in Pisces until the end of March 2025. During this time, we have seen an increase in compassion and kindness. When Neptune moves into Aries, it will initiate a period of taking action to spread kindness, compassion, and a sense of unity. Neptune will stay in Aries until March 2039.

Uranus will move from Taurus to Gemini in July 2025, beginning a time of renewed communication, increased restlessness, and amplified challenges to find relaxation as the nervous system will become more stimulated during this time.

Pluto is in Aquarius but will retrograde back to Capricorn from October through November 2024 before settling in Aquarius for 20 years. This shift will bring a new understanding of our unity and social responsibilities, transforming friendships and social goals.

Eris, the spiritual warrior of truth, remains in Aries for the foreseeable future, encouraging us to stand firmly for truth in the world. Prepare yourself—as the truth can be uncomfortable but is always necessary.

Dates to Remember

Mercury retrogrades happen 3 to 4 times a year. It's a good time for self reflection, introspection and study. It's not a good time to try to get things accomplished! Try to hold off on scheduling appointments, installing any new electronics or dealing with any type of communications.

Mercury is the communication planet. For those who don't believe in Mercury retrograde—it's not a belief, it's a fact. When in retrograde, it's telling us to slow down, take a breath and spend time contemplating things you would like to occur once it goes direct again.

2024 Mercury Retrograde Dates:

- August 5 - August 28
- November 25 - December 15

Mark these dates on your calendar! Avoid planning things while Mercury is in retrograde—instead, work behind the scenes to avoid frustration.
